## Section 24(c) Special Local Need Label

SUPPLEMENTAL LABELING FOR SPECIAL LOCAL NEED IN IDAHO

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF IDAHO

### TOUGH® 5EC

EPA REG. NO 100-880

EPA SLN NO. ID- 990011

For Weed Control on Garbanzo Beans (Chickpeas)

Active Ingredient:

Pyridate: (CAS No. 55512-33-9) .....55.8%

Other Ingredients: .....44.2%

Total .....100.00%

KEEP OUT OF REACH OF CHILDREN

### WARNING/AVISO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.  
(If you do not understand the label, find someone to explain it to you in detail.)

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR WEED CONTROL, CROP INJURY, AND/OR ILLEGAL RESIDUES.

---

## **DIRECTIONS FOR USE**

---

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Follow all applicable Tough directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA-registered Tough 5 EC label.

This label must be in the possession of the user at the time of pesticide application.

---

## **General Information**

---

### **Garbanzo Beans (chickpeas)**

Apply Tough 5 EC as a broadcast treatment in sufficient water (20-30 gallons per acre recommended) to ensure good coverage of the weeds. One to two applications of Tough 5 EC at 24 ounces per acre may be made per crop with a minimum of 20 days between applications. For best control of broadleaf weeds, applications should be targeted to actively growing weeds by the 4 leaf stage (approximately 3 inches in height or less). A delay in spraying which permits weeds to grow beyond the 4 leaf stage may result in decreased control. Adjuvants (nonionic surfactants, crop oil concentrates, or liquid fertilizer) are prohibited from use with Tough 5 EC when used on garbanzo beans.

**Precautions:** (1) To avoid excess residues, **DO NOT** apply within 60 days of harvest. (2) **DO NOT** make more than two applications. (3) **DO NOT** apply by air. (4) **DO NOT** apply this product when wind conditions will allow drift to adjacent, susceptible vegetation. (5) **DO NOT** allow livestock to graze on treated fields. (6) **DO NOT** feed forage, hay or ensilage from treated fields to livestock.

**Chemigation:** **DO NOT** apply this product through any type of irrigation system.
